

SAATIJET FILM

DESCRIPTION

SaatiJet is a specially coated polyester film that accepts inkjet ink without smearing. SaatiJet quickly dries to produce a waterproof film positive. Water resistance is an important feature to have in a film positive considering the damp environment typical of the screen preparation area of your shop.

SaatiJet provides a cost effective alternative to having your artwork done by expensive outsourced professionals. SaatiJet allows any image to be transferred directly from your computer to film. The result is a durable, waterproof film positive that can be used as often as required by your printing runs.

FILM THICKNESS

Sample roll: 26" x 100"
 Standard roll: 26" x 500" and 48" x 300"
CUSTOM SHEETS AVAILABLE ON REQUEST.
