

# Finish S2

For Use With Solvent-Based/Plastisol Inks

## Applications

Screen filler (block-out) for use with solvent-based or plastisol ink.

## Characteristics

- Blue, medium viscosity, liquid screen filler
- Water based and solvent resistant
- Optimal transparency

## Features/Benefits

- Fully solvent resistant and offers increased durability
- Spreads uniformly and evenly for optimal drying and filling
- Does not contain solvents and can be simply removed with water

## Directions For Use

On the substrate side of the screen, spread Finish S2 evenly over desired area of mesh and stencil with a straight edge. A squeegee or a plastic spreader is typically used. Filler may be thinned with water for retouching pinholes with a brush. To reclaim, remove with water.

## Health & Safety

Before using, refer to appropriate Safety Data Sheets. Contact SAATI at [info.IT@saati.com](mailto:info.IT@saati.com) or [info.US@saati.com](mailto:info.US@saati.com) to request SDS.

## Storage

When sealed in the original container and stored in cool conditions, SAATI products will maintain their original properties for one year from the date of production.

## Packaging

Available in one and five kilogram containers.

In North America, available in one quart, and one, five, and fifty US gallon containers.
