

SAATI Flat Reclaim Counters

Modular Stainless Steel Reclaim Systems for Assembly Line Style Reclaim

Applications

Reclaim screens in a horizontally integrated station. Each Flat Reclaim Counter is custom designed to take full advantage of the benefits provided by SAATI's unique chemical formulations.

Characteristics

- Stainless Steel
- Adjustable height legs
- Tilted flat work surface that allows operator to stack screens flat for higher efficiency
- Gutters that run along the back so the water drains quickly from the table, approx 8/10 gallon per minute.
- Quick Drain Style
- Drain attachment Ready

Features

- Modular pieces can be designed to conform to the shape of your reclaim area, including corners
- Simple to install drainage
- Tough stainless design resists impacts as well as chemicals
- Compatible with SAATI drum dispensing units

Benefits

- Reclaim "The SAATI Way"
- With flat counter shape, advanced reclaim techniques including stacked dwell periods can minimize scrubbing and increase efficiency
- Average of 20 screens per hour with one operator

Sizes

SAATI Flat Reclaim Sinks are made with modular sections of 4, 6, and 8 ft / 122, 183 and 244 cm
