

SAATIvent®

SAATIvent is a protective membrane designed to shield your devices from water, dirt, and dust while ensuring top-notch acoustic performance.

A sustainable and PFAS-free ultra-thin membrane solution that repels water without compromising the environment. Also keeping dust and debris at bay, ensuring optimal performance for your electronic components.

Nanomesh Aethex®

SAATI Nanomesh Aethex®, is a new patented solution to widen the Acoustex Product Range.

Working everyday with customers to analyze and solve present and future challenges, SAATI has developed a new product that assures the highest level of protection with outstanding audio performance, blocking even small

dust particles, but not sound.

Aethex® is the result of years of research leading to an innovative technology that combines invisible nano-fibers with precise monofilament mesh. Acoustic and Protection performances have been tested against the most severe environmental and reliability tests for our Nanomesh Aethex®.

SAATIfil Acoustex®

SAATIfil Acoustex® range is designed and manufactured to enhance acoustics, protect sensitive components, and, through post processing, adapt to improve or match overall industrial design concepts.

- **Acoustic Properties**
 - high precision and consistency
 - flat frequency response over the widest possible range
 - strict airflow control
- **Protection**
 - efficient protection from dust, metal particles and liquids
- **Aesthetic**
 - customisation for ID purposes through colour matching and MET coatings
- **Quality and Reliability**
 - Low moisture absorption thanks to polyester yarn
- **Environment and Social Responsibility**
 - Halogen free
 - Complying with REACH and RoHS latest standard

Main Applications

Established in 1935, SAATI is an Italian multinational company that produces technical precision and cutting-edge textiles and chemicals for industrial use.

SAATI offers various tailored solutions for consumer electronics: mobile phones, tablets, earpieces, professional audio and voice recognition devices.

The SAATI acoustic team works globally with customers to meet their current and future needs in all these areas and beyond.
