

SAATI Pro Coat Mini

The SAATI Pro Coat Mini provides a perfect solution for the small shop that thinks they cannot adopt automatic coating reasons of cost or floor space. Now affordable consistent quality can be accomplished with this easy to use, small footprint coater. It will be realized quickly that a consistent coated screen solves many of the day to day quality issues that make it to press. This machine is truly a plug and play workhorse.

Applications

Automatically coats 1 screen up to 28 x 40" / 711.2 x 1016 mm.

Characteristics

- Fully programmable
- Simple coating troughs attachment
- 110 volt, 15 amp
- 80 psi less than 1 cfm
- 6 month warranty

Features

- Easy to use touchscreen display – executes single programs
- Program capability: set dwell, coats and speed per side
- Servo driven for smooth maintenance-free operation
- Manual upper carriage easily adjusts when switching frame profiles, lower carriage is fixed. Fully pneumatic frame clamps on upper and lower frame holders
- Mountable on an included stand for convenient working height
- Small footprint is perfect for very small shops that couldn't accommodate automated coaters until now

Benefits

- Maximize consistency
- Set a program and get repeatable stencils, which result in a more repeatable print
- Easy use allows inexperienced operators to coat perfect screens
- The most economical and smallest automated coating solution that can coat a standard 25x36" screen

Size

42.3" x 80.3" x 17" / 1074.4 x 2039.6 x 431.8 mm. Approx.
246 lbs / 111.6 kg on included stand, 196 lbs / 88.9 kg alone.

Installation

Thanks to the SAATI Pro Coat Mini's unique design, installation can be completed easily by the customer. Simply connect the compressed air line and plug in the machine.
