

SAATILife

HAND HYGIENIZING GEL

—SAATI

SAATILife - The Combination of Cosmetics and Technology

At SAATI we have developed, manufactured and sold products for the most advanced sectors in the global protection, industrial, medical and diagnostics markets for more than 80 years. We aim to be of help in this emergency, we have therefore used our experience, extended and focused our skills to the cosmetic sector - established partnerships with experts, and we have been able to deliver an innovative dermo-cosmetic product, as is our tradition.

Hand Hygienizing Gel - Hygienizes and Protects

SAATILife hand hygienizing gel is a really innovative product in the market, as it satisfies the need to safely hygienize and the need of protecting the skin.

It contains 60% alcohol, which is the required percentage to grant hygienizing properties, combined with specific products that keep the skin hydrated and soft, even with frequent use. In addition to this, it has a pleasant citrus scent, thanks to the citrus essential oils.

It can therefore be used several times during the day with no effect of drying out the skin.

It is available in convenient 500 ml and 1000 ml dispensers, and in a 100 ml pocket size for take away.
