

EASY CLEAN FINISHING

Engineered for Home Appliances

Easy Clean finishing is a proprietary treatment that improves the soil release properties of filter media, making the removal of oil, dirt and food contaminants from filter surface, easy and effective.

The treatment acts improving the repellency of filter surface, so that the filter could be easily cleaned all the time you want!

Easy Clean Finishing could be applied to all the SAATIDOMUS range of fabrics, and it could be used whenever the filter is

affected by dirt accumulation, as it happens for dishwasher filters.

Easy Clean Finishing could be suited to other appliance applications such as clothes dryer and vacuum cleaner filters.

SAATIDOMUS® Polyester fabric

Product No.	Mesh Opening	Open Area	Mesh Count		Thread Diameter	Weight		Thickness	Air Permeability 20mm WG
	µm	%	n/cm	n/inch	µm	g/m ²	oz/sq.yd	µm	l/m ² s
PES 330/46	330	46	21	53	160	120	3,5	285	8400

The listed technical specifications, exception made for the thread diameter indicated with its nominal value, are referred to the arithmetic mean value of production samples and are subject to change, in accordance with our policy of continuously improving our products.

This item is just a suggestion of possible SAATIDOMUS® range of fabrics for the dishwasher filters.
