## Multi-Threat Protection (MTP) Systems

SAATI MTP systems are designed to protect against threats of different origins: bullets, knives and spikes. To face these kinds of threats we offer a wide range of products as multi-threat protection “MTP” (trauma reduction systems, stab and spike protection systems).

According to technical specifications, SAATI is able to offer products in sheets and in rolls in order to reach the required target: lightness, flexibility and reduction of scraps during the fabrication.
